PA NEW OBSERVES

Apparently a lot of householders were playing safe last night and burning porch lights as a precaution against minor hallowe'en pre-season stunts. Many porch lights were burning around the city during the evening.

While the hunting season opens Saturday in Pennsylvania, there are a lot of farms where there will be no hunting. A considerable number of farms in Lawrence county are posted against hunting.

Next Tuesday is election day. The work of the election boards should not be so difficult in tabulating the count, as there are no special contests of any kind, the entire elects being devoted to naming city and county and local district officials. The news will be as usual, appreciate co-operation of the boards in early reports of the results in the precincts. Some of the boards succeed in getting the reports in early, while others take hours to complete the task.

In many sections of the city it is noted that most of the leaves being raked off front lawns, etc., are being deposited in the gutters of the street. Apparently the city is going to have a huge task in hauling leaves away this fall, before the streets are all clear again.

Plainclothesmen will be at work in the city on Friday evening, as well as tonight, on the lookout for perpetrators of malicious mischief in the guise of hallowe'en fun. The downtown parade will attract thousands of participants and spectators, and police anticipate little trouble in the residential sections from the hallowe'eners.

SOVIETS BATTLE DRIVE DESPERATELY

Nazi Report Says Bombers Attack Both Moscow And Leningrad

By PIERRE J. HUSS

BERLIN, Oct. 30.—Chancellor Hitler's armies were reported sweeping forward on two strategic fronts today—the Crimean peninsula and the rich industrial Donetz Basin.

In the Donetz Basin, the high command announced, German forces advancing beyond Kharkov arrived at the upper reaches of the Donetz river.

And in the Crimea other blitz units were declared to be "pursuing the defeated enemy" after breaking the resistance of Soviet rear guards.

Push Forward
German authorities said the Nazi forces in the Crimea, after breaking through red army defenses yesterday, gave the Russians no chance to reform their ranks, but pushed relentlessly forward and established themselves in the peninsula proper.

The Soviets, according to Berlin military authorities, were attempting desperately to stem the Nazi sweep toward the great Russian Black Sea naval base of Sevastopol, but the Luftwaffe was reported "mercilessly" raiding every Soviet troop concentration.

It appeared the German high command was determined to take advantage of the more mild southern climate to seize the Crimea to prevent a possible Soviet flanking movement there, and at the same time mop up the entire Donetz basin region.

At present, it was claimed, the last remaining points on the west bank of the Donetz river are being taken.

Neutrality Act Repeal Debate Is Continued

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Oct. 30.—Senate administration leaders today declared that a resolution for a declaration of war against Germany—if offered as a "showdown amendment" to the bill revising the neutrality act—would be decisively rejected as a "fake" proposal.

Aroused by the drive for arming of ships and repeal of the combat zone provisions of the neutrality act, some non-interventionists have predicted that before the fight is over the senate would be forced to vote on a war declaration.

Wouldn't Vote For It
"I don't know anybody who would vote for it, and I doubt that it will be offered," said Democratic Leader Barkley.

An amendment for a declaration of war wouldn't get a single vote, said Sen. Pepper (D) Fla. "If it is offered it should be thrown out as an effort to trifle with a solemn subject."

As debate on neutrality revision entered its fourth day, Sen. Thomas (D) Utah, was called upon by the administration to support the proposal to wipe out what President Roosevelt calls hampering restrictions in the aid-to-democracies program.

While Sen. Hill, Ala., Democratic whip, declared that the administration is sure of 55 votes for neutrality act revision, Sen. Taft (R) Ohio, voiced hope of a reversal of feeling that would upset administration plans.

"I would place our vote at a minimum of 55," said Sen. Hill. "The bill will be passed next week."

Hill's estimate, on the basis of a full senate vote, would make the vote 55 to 41.

Want To Come Home From British Isles But Can't Get Passage Across

By KINGSBURY SMITH

WASHINGTON, Oct. 30.—State department sources today disclosed that nearly 2000 American citizens who wish to return home are stranded in the British Isles.

Only 100 out of 2000 Americans who appealed to the American embassy in London to help them obtain transportation home have been able to return to the United States in recent weeks.

The others are unable to return because of the difficulties of obtaining transportation on a belligerent ship, coupled with this government's unwillingness to send an American vessel to repatriate them in face of Germany's flat refusal to grant safe conduct to such a ship.

Company B To Make Initial Appearance In Uniform Armistice Day

Uniforms for Company B, Third Regiment, Pennsylvania Defense Reserve Corps have arrived, according to Captain Lester W. McClelland today and the first public appearance of the company in uniform will be made on Armistice Day, November 11.

Along with the other units of the Third Regiment, Company B will parade in Pittsburgh Armistice morning under the command of Colonel Robert G. Woods. In the evening the unit will march in the Armistice parade in New Castle.

Transportation to and from Pittsburgh on Armistice morning is a problem as yet. Captain McClelland is endeavoring to make some arrangements whereby the company can be transported but that far the transportation has not been forthcoming.

The uniforms are of a forestry green color and in general appearance resemble the regular army uniforms. Some alterations were necessary to the uniforms here in order that each one would fit as it should. These alterations are being made and by Armistice Day the company will be ready to step out as a trained military unit.

London Says Report Of Second 'Chute Visitor From Germany False

(International News Service)
LONDON, Oct. 30.—Rumors that a high German personage has landed in England by parachute in imitation of the arrival months ago of Rudolf Hess, erstwhile No. 3 Nazi chieftain, were denied by officials British quarters today.

The denial was issued following careful official inquiries at all British airdromes and among all police and home guard authorities.

The report was first published as an unconfirmed rumor by the London Evening Standard.

"It was rumored in London today," said the Standard, "that a high German personage had emulated Hess by landing by parachute in Britain—this time in Cambridgeshire."

"Service chiefs, however, could not confirm it. They had made inquiries of East Anglia authorities. 'No one there knew anything about it. No enemy plane had been over.'"

Hess landed months ago by parachute in Scotland and has been a prisoner of war ever since.

Urges Citizens To Vote On Tuesday

State Chairman Scores Apathy

Must Make Certain That Representative Government Is Not Supplanted

PUBLIC APATHY IS ENEMY OF U. S.

(International News Service)
HARRISBURG, Oct. 30.—Republican State Chairman James F. Torrance today declared that "public apathy is the enemy of free government" and urged party leaders to "get out the vote" on November 4.

Torrance urged that public interest be aroused to the "inescapable obligations of citizenship" and added that "it is the duty of every American to exercise the right of suffrage."

"The Republican party, as the majority in this state, must make certain that representative government is not supplanted by a political government of men. Already we have been witness to the previous maneuvers by which a powerful and autocratic minority would establish a political dynasty in Washington. This must not happen in Pennsylvania."

"Upon every Republican county chairman, committeeman, committeewoman and precinct worker falls the concomitant obligation of getting out the vote so that the forces of wrong-way government will collapse under the sheer weight of public repudiation."

"Public apathy is the enemy of free government. By sounding a warning against the dangers now menacing the processes of American democracy, the Republican party can help to perpetuate the doctrine of independence and liberty inscribed for us by the fathers of the greatest charter in the history of a free people."

loss of Kharkov, strategic manufacturing center of the Donetz Basin.

Nazis Suffer Huge Loss
But a war communiqué said the Germans had accomplished this success at a fearful cost—120,000 Nazi soldiers killed.

Soviet authorities said Russian bombers attacked Berlin during the night.

(Editor's Note: The German propaganda ministry in Berlin denounced Russian claims of a Red air force raid on Berlin as a "downright lie.")

Incendiary and high explosive bombs were declared to have been dropped on military and industrial targets in the Nazi capital, causing explosions and fires.

It was the first air raid Berlin had experienced since the night of September 20, when the city was pounded by the R. A. F.

The last previous Red air force raid on Berlin occurred on the night of September 4.

Moscow Attacked

Luftwaffe bombers simultaneously attacked Moscow. A Russian radio broadcast said anti-aircraft batteries and night fighters repelled most of the German planes but that a few penetrated the defenses and bombed residential districts of the city "at random," causing a number of casualties.

In their raid on Berlin, the Soviet planes also dropped thousands of leaflets on the German capital.

Latest advices from the front said all German attempts on the southern front to penetrate the defenses of Rostov gateway to the caucuses, were meeting with stubborn Red army resistance.

The Soviets were declared to be gradually strengthening and improving their positions and to have carried out "successful counterattacks" during the last two days.

A Moscow radio announcer added: "Our armies on the western front are ready for a new thrust by the German armies on Moscow."

"The strength of the enemy is still great."

Reporting Kharkov had been evacuated by its Russian defenders after 120,000 German attackers had been killed, the Soviet midnight communiqué said fighting had continued on the Moscow front and that a series of fierce German attacks had been "driven off."

"Thirty-nine German planes were shot down near Moscow on Wednesday," the communiqué said.

"Our troops left Kharkov for strategic considerations at a time when the Soviet high command deemed it expedient—not when the Germans wanted it."

In the fighting, the high command said, the Germans lost more than 450 tanks and armored cars, 3,000 trucks loaded with military supplies and more than 200 field guns.

All important plants and rolling stock, raw material supplies and other valuables were said to have been evacuated from Kharkov, while several medium and small plants of military importance were blown up.

Counter-Attack Gains

London, Oct. 30.—Ground-gaining Russian counter-attacks on the crescent-shaped front before Moscow were reported today by the London office of the Soviet (Tass) news agency.

Basing its information on bulletins broadcast by the Moscow radio and picked up by a Soviet monitor in London, the agency said Soviet forces continued to launch attacks on the Mzhaisk and Maloyaroslavets sectors west and southwest of the Russian capital.

The Russians were declared to have occupied the "outskirts of the important points 'N' and 'B'" while other units crossed the Nara river 40 miles from Moscow, and advanced 500 yards, remaining under heavy artillery and machine gun fire.

According to the broadcasts, the battle along the Nara river still was in progress.

Fighting from catacomb to catacomb in the merciless type of underground warfare, Russian "suicide squads" were reported harassing German occupation forces in the Black Sea port of Odessa.

A Stockholm dispatch to the London Daily Mail said the squads, dressed in civilian clothes, were left behind when the red army defenders evacuated Odessa.

Living in the depths of the city, according to this account, the Russians still are fighting the Germans.

Street Fighting

Moscow, Oct. 29.—Violent street fighting and house-to-house combat was reported today in Kalinin as German forces sought to drive a wedge into Soviet positions in the battered town 110 miles northwest of the Russian capital.

According to a Moscow broadcast, other German units attempted a right flank advance on the central front. The situation at Volokolamsk, 60 miles west and slightly north of Moscow, was reported critical.

On that sector, the Moscow announcer said, the Germans concentrated large tank and infantry forces and "succeeded in capturing several inhabited points."

ferred to, had suggested that the men return to work immediately pending the consideration of the dispute by the national mediation board starting tomorrow. A "union shop" is the sole issue in the controversy.

Lewis, in his announcement, continued: "The miners will return to work as fast as arrangements can be made locally. In some instances the night shift will return to work tonight."

Result of Taylor Conference
"I may say that the entire basis for the arrangements were worked out at a conference which Mr. Taylor and I held yesterday. Once again Mr. Taylor and I have been able to render a service in time of great national interest in a manner that has received gracious approval by President Roosevelt."

"It may be recalled that seven years ago in this same hotel, Mr. Taylor and I settled the captive mine controversy of 1934. In later years, we subsequently negotiated a contract in the steel industry (in 1937)."

(Editor's note: Labor leaders call a mine owned by a company which takes all its coal output, a "captive" mine.)

"At that time I stated that Mr. Taylor was an industrial statesman of far-reaching vision. I reiterate that statement today. I express gratification that the matter is on the way to complete settlement without substantial inconvenience to the defense program."

Taylor was asked if he had anything to add to the statement. He declared:

Taylor Gratified
"I am very much gratified with the broad and cooperative attitude which Mr. Lewis has displayed in a difficult situation in a time of great national peril."

The Parent Problem

By Garry C. Myers, Ph. D.

PARENTS OFTEN INJURE CHILD

I have often said that about the hardest place to be a Christian is at home among our own loved ones. There it is that human frailties are prone to function at their worst.

Now it seems to me that a basic item in true Christianity is deep regard for and wise understanding of other people. This necessitates the ability to put ourselves in another's place and to treat him as we would like to be treated.

Often we lord it over those we love—if they let us. Our defenseless children have no way of hindering us in this transgression. Accordingly we boss them many times when there is no need to do so. We choose for them many times when they could choose wisely for themselves, and often scold and punish them without good reason to do so—all because we, unawares, are seeking satisfaction in feeling superior.

Don't Laugh at Children

For the same reason we laugh at their questions and remarks and make fun of them. We hamper their self-expression and render them self-conscious. Most parents have been unconsciously guilty of this.

Who of us parents or teachers has not said to a child, or another of our own family, "You don't know that, I'm surprised. A baby should know that." Or, "It seems to me you should have known better." How important such statements make those who say them feel. How uncomfortable the one to whom they are said. Yet we don't say such things with a purpose to hurt.

We are often impatient with our children for the same reason. We grow angry at them when they make mistakes in learning to spell or add.

Ashtamed of Mistakes

What could be more unfair to the struggling child as he tries to learn? Already he is disgusted with himself for his mistakes. Then when a parent scolds this child, the father or mother must appear to him to be a bully who would kick him when he's down.

Perhaps with a little more effort at self-control and understanding of the child we might prove to be better parents.

A selected list of books and pamphlets on understanding children and guiding them happily may be had by writing me at 235 East 45th street, New York City, enclosing a self-addressed envelope with a three-cent stamp on it.

Solving Parent Problems

Q. "My baby, 19 months of age, climbed up on a chair and got a pair of scissors. I found her as she was coming down and gave her a good sound spanking. Was this good procedure?"

A. You aimed to make climbing for the scissors painful to her so she would not repeat it. If nothing more were involved, you could be pretty sure of good results. But this child, climbing again for some dangerous object, on seeing you approaching, rush to escape you and, in doing so, might fall even with the object in her hand.

You really had two specific problems here: one of climbing to a forbidden place, the other of seizing a forbidden dangerous object. You, therefore, would have been wiser if you had quietly asked the youngster to give you the scissors or help you put them back. The essential item in such procedure is your calmness. If, however, you had been on hand so as to spank this child just at the moment she was beginning the act of climbing for those scissors the effect might have been safe. You should be vigilant with this child to see that she climbs nowhere except safe places which have been designated to her. I hope you provide some safe places for her to climb.

The World and the Mud Puddles

YES—BAREFOOT

I presume that the Secretary of the Treasury has no plans and makes no suggestions concerning financial matters without having had the approval of the President. The last outburst of this ex-banker seems to indicate that the President wishes to confiscate the wealth of the nation. If Congress should limit the profit made by any concern in this country to any fixed amount, it would practically amount to confiscation and if you confiscate the earnings of Capital, you are confiscating Capital itself; you are destroying the very source of taxes, and it would not be long until we were back to living in shanties and going barefoot.

Along this line, some rhymster, whom I do not know, but who seems to have an intelligent idea of the subject, has paraphrased Whittier's poem, "The Barefoot Boy" in this manner: "Blessings on thee, little man Barefoot boy with cheeks of tan! Trudging down a dusty lane With no thoughts of future pain, You're our one and only best To absorb the national debt."

"Little man with cheeks so few, We've a lot of faith in you; Guard each merry whistled tune, You are apt to need it soon. Have your fun now while you can; You may be a barefoot man!"

Bible Thought For Today

Judge me, O Lord; for I have walked in mine integrity: I have trusted also in the Lord; therefore I shall not slide. Psa. 26:1.

The Fathers gave us a government and for the people, but we must decide which people it is by and for.

HINTS AND DINTS

Sun sets tonight 5:01. Sun rises tomorrow 6:27.

Many things are being made out of corn, sugar and many other things. People also get corned out with things made out of corn.

A North Hill girl who attended a party met a former suitor. She decided to snub him when the hostess introduced her to him. "So sorry," she murmured, "but I didn't get your name." "I know you didn't," said the former suitor, "but you certainly tried hard enough."

PRACTICAL HOUSEHOLD HINT
Another advantage of leaving the breakfast grapefruit in the refrigerator overnight is that you can start the day off with an invigorating cold shower.

We read of a woman who was fined \$10 for wearing her hat in a theatre and she also slapped a woman in the face and gave her a dirty look. Just wearing the hat was bad enough.

"Now," said the teacher, "if James and David gave you a dog, how many would you have?" "Four," answered the little fellow. "Now, I want you to think that to call my dog 'James' and 'David' gave you each one?" continued the teacher. "Yep. You see I got two dogs at home."

The way to have people be nice to you is for you to be nice to them.

A BROAD HINT

The recruit had the habit of partaking of his soup in a noisy and boisterous fashion. The noise was so loud that it upset the rest of the company. One day when the offensive sounds were at fortissimo, a veteran strode toward the culprit and said:

"May I help you?" "Help?" echoed the recruit. "I don't need any help."

"Sorry, sir," said the veteran, "I thought perhaps you might wish to be dragged ashore."

A youth was unhappy and poured out a tale of misery on a park bench. A friend said, "Young man I can see by looking at you that you're going to be poor and unhappy until you are forty. And what will happen then?" the youth asked. "You'll get used to it," said the friend.

WHEN IN DOUBT

When John Hay, the American statesman, appeared before a committee of prominent lawyers to be examined for admission to the Illinois bar, a member of that august body fixed a stern eye upon the young man, described in elaborate detail an extremely difficult case, and then demanded, "Mr. Hay, what would you do if a client came to you with such a case?"

Hay had not the faintest idea of what he would do, but knew it would be fatal to admit the fact.

With great promptitude he replied, "I should ask for a retaining

fee of fifty dollars, and tell him to call again tomorrow."

"Mr. Hay," exclaimed the examiner, with a laugh, "you are admitted."

WELL, WHY NOT?
The student was one of those lads short on knowledge, but long—oh, so long—on resourcefulness. For many minutes the professor had been plying him with questions in an effort to break down his colossal self-assurance, but all in vain. The fellow was simply too adroit.

"You have heard of cause and effect?" the professor finally inquired.

"Oh, yes," the student replied.

"Have you heard of effect coming before cause?"

"Indeed, yes," was the reply.

With an ill-concealed look of triumph, the professor demanded, "Give me an example!"

"A barrow wheeled by a man," the student replied.

Yet the fundamental reason for government faults and the law's failures is that people don't give a darn.

Question: What is a "junior bridesmaid?"
Answer: Something between a flower girl and a bridesmaid. Some times when the bride has a young sister, at this "in between" age, whom she wishes to include in her wedding party, she will make her a junior bridesmaid.

Question: We have just received invitations to "bait" after six church wedding, but not including the reception. Is it essential to attend? How should we dress? Is a wedding present required? Should the invitation be acknowledged?—B & B.

Answer: You may attend or not, as you wish. You need not reply to the invitation unless the wedding will be so small—informal invitations issued—that you will be missed. No gift is necessary. Since you will not attend the reception, you need not wear evening clothes.

Question: I have some small forks which are supposed to be used for salad. Have they any other use?—H. W.

Answer: They are also used for dessert—pie and cake.

South American Trade Worth Discussion
Foreign Policy Association Gives Idea
Advocates Inter-American Free Trading

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, Oct. 30.—To tie the western hemispheric republics together nothing could be so efficacious as an inter-American free trade program according to a recent report by this country's Foreign Policy Association.

It was a convincing document too, prepared by one Constant Southworth, an investigator for the association.

That the adoption of Constant's suggestion is a possibility isn't so likely. The Latin nations unquestionably would fall for it like a ton of brick, but there are interests in the United States that shy away from it in perfect horror, and the United States would have to take the initiative.

It's an initiative that State Secretary Cordell Hull our reciprocal tariff apostle, has long favored taking, not only in Latin America's direction, but in all other directions, with peoples that were at peace with it. Cordell isn't an unqualified free trader, and I've long suspected him of being one, at least he's about a 95-percentist and has gone as far with our international treaties as he could get away with.

He's done it, though, in the face of considerable opposition, and a proposal to level all export and import barriers between the Americas unquestionably would create a terrifically big market for our crops and livestock products.

It would be, from the jump, an excellent thing from the standpoint of our manufacturers because the Latins don't do much manufacturing, but have to import all of such stuff. They've done so, to a great extent, from Europe, but if they could swap with us on a mutually free trade basis, they naturally would do business with us almost exclusively. Just now, with our factories turning out practically nothing but military and naval supplies, it wouldn't make any immediate difference, for we haven't the goods that our neighbors need, but as soon as peace is restored we'd get simply a flood of their orders, and with US buying from THEM, they'd have the money to pay for what they wanted.

What ARE things we require from the Latins that we don't produce ourselves and could not object to letting in as freely as atmosphere—some minerals that we haven't any of or not enough of, iron, copper and rubber, if the upper (Continued On Page Eight)

A Contrast

WASHINGTON, Oct. 30. IT would be hard to find any detached and informed person here who would dissent from the statement that there are far too many press agents, publicity directors, information agencies and propaganda bureaus connected with the defense organization to permit of an even reasoning degree of competency or clear thinking.

IN cost and in number they exceed anything ever dreamed of before and are partly responsible for the murky clouds of confusion in which the whole effort is enveloped. If there were nothing else, the multiplicity of these overlapping uncoordinated and unconnected agencies would destroy any possibility of efficient functioning of the machine. One way and another, there are almost as many people engaged in telling what is being done as there are engaged in doing it. And those engaged in the telling are often more furiously active than those engaged in the doing.

IT is a strange state of affairs. Everybody knows that things would be improved if the publicity and propaganda forces were cut down, condensed and coordinated. But instead of being cut down they are piled up, instead of being condensed they almost daily expand. They all work at high speed and their output is enormous. Recently, the New York Times estimated that this "information service" will cost more than \$10,000,000 this year, and that there are in it now an army of 1,436 newspaper reporters, a host of psychologists, cartoonists, song writers, playwrights and novelty purveyors. These are being added to every day. Eight Government agencies are concerned with defense information, but there are twenty-six agencies in the non-defense agencies and the whole business is in an awful mess.

THAT is an indisputable truth. Nobody is in a position of authority over these publicity agencies. But several hundred Government officials have something to say in their direction. Some are engaged in putting out favorable publicity about what is going on. Others are interested in keeping the facts under cover. Still others concern themselves with radio, moving pictures, illuminated crystals and the interchange of "cultural ideas." And others still point out the wickedness of those who do not applaud. The most recent of the information agencies is the "Office of Facts and Figures." But what this bureau is to do still remains hazy and unexplained. It is not, for example, to supersede, curtail, direct or even supervise such large and expensive agencies as Mr. Horton's \$750,000-a-year OPM bureau, or the Treasury's million-dollar setup, or Mr. Nelson (Continued On Page Eight)

HAPPYGRAMS
by ERICH BRANDEIS

Poor Julius can't understand for the life of him what all the rumpus was about.

Julius is a young work elephant, owned by the firm that ran the state fair at Raleigh, N. C.

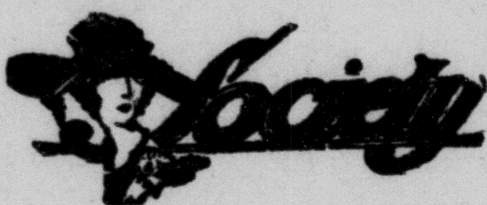

His keeper left him chained to his stake and went about his business.

Julius got thirsty and, nobody being about, pulled up the stake and went in search of water.

Then everybody got excited. Women screamed, attendants shouted, children ran for shelter. Someone even fired a gun, but luckily missed the harmless pachyderm.

Finally, the keeper returned and got a few barrels of water. Julius drank and went to sleep.

After 40—To Enjoy Life More
GIVE LIVER BILE
FLOW A BOOST—
Start Tomorrow Morning and Keep
This Up for 30 Days

Normally the liver should discharge about a quart of digestion-aiding bile juices a day. If it doesn't—a scanty flow—may mean Sick Headaches, so-called Biliousness, Poor Digestion, with that sick, tired, all-gone feeling and most probably Constipation.

There's no need to take Calomel or other risky drugs, just take a little daily dose of that world-famous Kruschen Salts—half a level teaspoonful in a glass of hot or cold water about half an hour before breakfast. This bowel action. Try it bile with its gentle bowel action. Try it for 30 days and you too may shake off that "run-down" feeling and get a real "lift." But don't start unless you are willing to keep it up for 30 days. If then you do not feel 100% better get your money back.

Charge 100,000 Yugoslav Patriots Already Slain

By MERRILL MUELLER
International News Service Staff
Correspondent

LONDON, Oct. 30.—Nearly 100,000 Yugoslav patriots already have been executed, murdered or massacred. Another 100,000 have been thrown into concentration camps.

But despite these extreme repressive measures, rebellious Serbian and Croat guerrillas have been able to inflict at least 6,000 casualties on their German, Italian and Ustachi overlords, the free Yugoslavian government asserted today in an exhaustive resume of the bloody purges and open warfare are now raging in that country.

The Archbishop of Canterbury, quoting figures from the Serbian Orthodox church, says that more than 180,000 Serbs alone have been massacred in Yugoslavia.

Appalling Figure
This appalling figure the free government does not confirm. However, an official spokesman said that conditions in so-called independent Croatia under Italian-tutored Ante Pavelitch, the Ustachi chieftain, parallel those in German areas under Gen. Constantin Neditch.

The result, he said, that guerrilla bands operating in the mountains and forests are made up of both Croat and Serbian patriots, fighting together to sabotage the invaders with a new national unity.

"Latest reports indicate that Pavelitch has been forced to purge a good number of his dissatisfied Ustachi leaders," he said.

"Pavelitch himself now is in such fear of his life that he has doubled his bodyguard. He has sent his wife back to Italy."

"Italy is greatly displeased over his failure to organize the new Croatian state sufficiently to permit the Duke of Spoleto to ascend his new throne. It is no fable that the Germans on four occasions have asked Matchek (Dr. Vladimir Matchek, Croat Agrarian leader), to reconsider his first refusal to organize the Croat government with their support."

Italians Lose Men

The Axis is clearly divided on the question of Croat administration, he said, more so that the Italians, after withdrawing from the interior because of repeated uprisings, have

taken over several free corridors along the coast.

"The Italians lost at least 1,000 men in fighting in Montenegro lately," the spokesman continued, "and seven of the Italian appointees to the Skupstina (parliament) have been assassinated."

"Nearly 1,000,000 peasants living in Bosnia, Herzegovina and Croatia recently migrated en masse to Serbia. This represented an Axis effort to clear up rebellion in those areas. It failed."

"Efforts to raise a Croat legion to aid Hitler against Russia led to open mutiny among Croatian troops at Varazdina, and 60 of them were shot."

"Guerrilla raiders are concentrating their activities against railway lines and destruction of Axis stores, and are not overlooking the assassination of Axis agents and sentries, all of which comprise signs of increasing rebellion throughout the country."

"Russia's fierce resistance to the Nazi invasion is inspiring her Slav brothers."

Football can be a dangerous game for spectators.

Not only are they often exposed to very inclement weather,

But the vocal cords come in for some harsh treatment.

Yelling puts a strain on the vocal cords and the larynx.

Vocal cords produce sound of the voice in the larynx.

These cords vibrate to air expelled between them.

Voice has volume, tone and pitch. These depend on the size and thickness of the cords.

Also, on the diameter of the larynx and muscles in the throat. Interference with normal functions causes hoarseness.

Rest the hoarse voice—at least until the next football game.

The Great Game Of Politics

(Continued From Page Four)

Rockefeller's elaborate establishment of glamour boys and girls intent upon spreading sunshine and light among our Latin-American neighbors, or the classy circle presided over by Colonel Donovan, where some 200-odd bright young men, including Capt. Jimmie Roosevelt, are devoting themselves to what the Times calls "psychological warfare", or the Office of Government Reports, directed by the modest Mr. Lowell Mellett, which makes its own digest of defense information.

CONSIDERING this bewildering situation, with its million dollar expenditure, its motley pay-roll army and its many glittering commanders, the contrast drawn in Collier's this week by Mr. George Creel, who headed the Wilson War Committee on Information, is an impressive one. It seems that in this as in other matters the Wilson example might have been followed to advantage. The Wilson idea was that while cluttering up the landscape with boards and commissions was an almost inevitable part of democratic process, the war powers of the President should enable him to simplify things. His plan was to designate one boss for each job, give him full power and hold him to full responsibility. President Roosevelt has proceeded in the exact opposite direction. He has multiplied the boards and commissions and designated no one as boss.

So far as publicity and information were concerned, in the last war Mr. Creel was the sole boss, reporting directly to the President and operating much more efficiently than the present setup at less than one-tenth the cost. The striking thing about Mr. Creel's article, which might profitably be pondered at the White House, is his recollection of what Mr. Wilson said to him when he gave him the job. Here it is: "We do not need less criticism in time of war but more. Honesty and competence require no shield of secrecy. The people have a right to know what is in the mind of the President and every forward step should be taken in the open. Before a sound public opinion can be formed it must be informed—not manipulated, not tricked, not wheedled but given all the facts."

"A FREE people," Mr. Wilson continued, "are not children to be humored, cajoled or lollypopped with half truths for fear the whole truth will frighten them. There, of course, are military secrets that must be kept secret, but in the great majority of cases concealments proceed from bureaucratic distrust of democratic common sense." He urged a free and uninterrupted flow of news on production and construction—the good along with the bad. No one will contend that this is the Roosevelt policy. On the contrary, the whole weight of the "information services" is exerted to cover up the failures of the defense effort and the truth only emerges through the fearless statements of such men as Senator Byrd of Virginia, whom the Administration constantly seeks to discredit.

What's What At A Glance

(Continued From Page Four)

Amazon's natural supplies of it were developed. Furthermore our winters are the Latin's summers and we could get their fresh fruits and vegetables during our off seasons.

Our purveyors of CANNED vegetation would squawk, however, to a certainty. And oh! — how our grain and cotton and meat raisers would yowl!

It isn't a certainty that the situation wouldn't presently adjust itself all around.

It wouldn't if international trade worked only two ways, but it doesn't; it's triangular or multi-lateral. And the Latin's trafficking almost exclusively with us, they wouldn't be fixed to send much of their agricultural and animal supplies to Europe and maybe OUR farmers and stockmen would find Latin-abandoned markets on the eastern side of the Atlantic.

Besides, the improvement in our manufacturers' southerly business would be calculated to reflect itself domestically agriculturally-ward and livestockishly-ward and the net result would be generally beneficial.

Nevertheless, the rejiggering process necessarily would be gradual, and, while it was in progress, Yankee farmers and cattle growers doubtless would feel the effects of it. It's no wonder that their skeery of the prospect.

A Long-Run View
The Foreign Policy association takes a long-run view of the matter.

It considers Investigator Southworth's reasoning economically sound, in the first place.

Furthermore, it takes a squint at the political aspect of inter-American free trade, arguing that it would solidify the Pan-Americas as no amount of theoretical, sentimental good neighborly talk can accomplish.

Protectionists aren't going to like the idea, no matter how cogently it's presented.

All the same, it's worth discussion.

Among other things, it would call for the evolution of a considerable new sort of taxation, to take the place of tariff collections.

Hints On Etiquette

"Neither a borrower nor a lender be," said Polonius to his son. A revised version would be: do not borrow unless it seems absolutely necessary, especially from friends. Then repay the article in good condition and with properly expressed appreciation.

BIRTHDAYS of FAMOUS AMERICANS

(Compiled by Encyclopaedia Britannica)

OCTOBER 30

1735—John Adams, second President of the United States, at Quincy, Mass. One of the outstanding patriots of the Revolutionary period, he was a member of the Continental Congress for four years. He seconded the nomination of Washington as commander-in-chief of the army, and helped to draft the Declaration of Independence. He was one of the negotiators of the Treaty of Peace with Great Britain, and later was the first U. S. minister to the court of St. James. He was elected vice president in the first Presidential election of 1789 and in 1796, when Washington refused to accept a third term, Adams was chosen president.

1829—John Rogers, sculptor, at Salem, Mass. His work, chiefly small figures, known as "Roger's

Groups", had an enormous popular success. He became a National Academician in 1863.

1829—Roscoe Conkling, lawyer and political leader, at Albany, N. Y. After serving two terms in the House of Representatives, he entered the Senate in 1867 and served continuously until 1881. He was

a candidate for the Republican nomination for President in 1876. In public life he always attracted attention by his abilities, his keenness and eloquence in debate, his aggressive leadership, and his striking personality.

The first railroad in Brazil, built in 1854, was nine miles long.

Mother, This Home-Mixed Cough Relief Is Wonderful

Saves Real Money. No Cooking. Quick Results.

To get the most surprising relief from coughs due to colds, you can easily prepare a medicine, right in your own kitchen. It's very easy—a child could do it—needs no cooking, and tastes so good that children take it willingly. But you'll say it beats them all for quick results.

First, make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. Then get 2 1/2 ounces of Pinex from any druggist, and pour it into a pint bottle. Then add your syrup.

This gives you a full pint of really splendid cough syrup—about four times as much for your money. It never spoils, and lasts a family a long time.

And for real, quick relief, it can't be beaten. It acts in three ways—loosens the phlegm, soothes the irritated membranes, and helps clear the air passages.

Pinex is a special compound of proven ingredients, in concentrated form, well known for prompt action in coughs and bronchial irritations. Money refunded if it doesn't please you in every way.

News And Views From Pennsylvania Capital

(International News Service)
HARRISBURG, Oct. 30.—There appears little likelihood, at least in the near future, of the state adopting the British stamp plan in place of the present administrative system of unemployment compensation in Pennsylvania. . . . Adoption of the British plan was advocated by Ernest Kelly, executive director of the unemployment compensation bureau, to help eliminate fraud in the payment of insurance claims. . . . Under the plan an employer pays his tax through the purchase of stamps in a post office. . . . These stamps are given to his employees to be pasted in a book. . . . Presentation of the book at the government employment office is necessary in order to obtain jobless benefits. . . . In order to work, an employee must show the book.

A. Allen Suloway, assistant director of the bureau's employment service, said the U. S. social security board did not consider the plan feasible for this country. . . . He added that without its approval the plan could not be placed in effect in this state, because the board underwrites the bureau's expenses. . . . One of the chief objections is labor, because under the stamp plan an employer can immediately tell, by a glance at the stamps, what his employee's salary has been.

The reason given in Washington for the dismissal of Philip Mathews as state W. P. A. administrator is considered weak by those who know the ex-army colonel. . . . According to Acting Works Projects Commissioner P. H. Dryden, "the reason for the change was simply the desire of the commissioner to strengthen the administration of the program in Pennsylvania." . . . He denied that political influence had been a factor. . . . In Pennsylvania circles, however, Mathews is known as the most efficient administrator the W. P. A. has ever had. . . . It was widely recognized that during his regime no politics was permitted. . . . The general impression remains that Mathews' dismissal was due to U. S. Sen. Joseph P. Guffy.

State Republican leaders have noted with interest the stand taken by Mrs. Worthington Scranton.

"Fantastic" Says Governor James Of Baugher's Story

Governor Discusses Charges
Against Former Deputy
State Treasurer

(International News Service)
HARRISBURG, Oct. 30.—The alibi of Clifford G. Baugher, Erie, resigned deputy state treasurer accused of embezzling \$13,000 in state funds, was labeled "fantastic" today by Gov. Arthur H. James.

Baugher, seriously ill in an Erie hospital, told Attorney General Claude T. Reno that he forged the signature of Leo A. Werner, Harrisburg postmaster to state checks for stamps and deposited the money in a Pittsburgh bank. Baugher said he wanted to be certain that the treasury department would not run short of funds for administering monthly relief checks.

"That story is about as fantastic as can be imagined," declared Governor James. "It is a plain case of forgery and misappropriation of public money—and that has been thoroughly established."

The governor said that Baugher's explanation to the attorney general "was just the story he had to tell."

Recovery by the Commonwealth of \$10,000 from Baugher's bank account was announced by Reno, who also said he had stopped payment on another check for \$3000 to which he declared Baugher admitted forging Werner's signature.

At the same time, Governor James revealed that the monthly allocation to the treasury department for handling relief checks had been slashed from a three-month level of \$60,000 a month to \$50,000.

Draft Official Warns Youths To Declare Marriage

Says Complications Later May
Be Difficult To Unravel If
Status Is Unknown

According to a local draft board official, some of the young men going into the service are getting married secretly, or are neglecting to notify draft officials of the fact that they are married when they are sent away for army service, which may cause complications later which will be difficult to unravel. Local World War veterans can attest to this fact, also.

Youths who are inducted as single men will have the burden of proof thrown on their shoulders if they enter as single men and then try to prove later they are married. According to present regulations, married men are exempt from service at the end of a year, while single men may be kept longer if the emergency still exists, the local board official stated.

In one of the groups which left this week there were 12 newly married men among those departing, several of whom had neglected to notify the board of this fact, and the discovery was only made and the men's records changed at the last minute. Had they gotten to camp, a lot of red tape would have been necessary to have had their status changed.

Silver foxes are raised by about 1,000 farmers in Province of Ontario, Canada, the Department of Commerce reported.

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Westminster Students To Pre-
sent Shaw's Comedy Satire
On English Life

(Special To The News)

NEW WILMINGTON, Oct. 30.—George Bernard Shaw's comedy-satire on English life, "Pygmalion," opens in the Westminster college Little Theatre Tuesday evening, November 4, for a four-day run. The curtain on the opening night goes up at 8:15 o'clock.

The plot of "Pygmalion" centers around an attempt on the part of an English linguistics expert, Professor Higgins, to take a gutter-snipe Cockney flower-girl off the streets of London, and in a limited period of time train her so that he can pass her off as an English countess. The outcome of the experiment is not decided until near the end of the play.

In the leading role as Eliza Doolittle, the Cockney flower-girl, is Elsie Hetherington of Union, N. J. Stewart Davis will take the role of Professor Higgins, and Colonel Pickering, another phonetics student, will be taken by Henry Herchenrother.

Other students in the cast include Beth McLaughry, New Castle.

Jean Hollingsworth, Beaver Falls; Max Linn, Bellevue; Elizabeth Burnette, Etta; Virginia Zepp, Ardsley; Janet Keech, Altoona; Martha Ann Light, Monongahela; James Heriot, Pittsburgh; Russell Apple is a technical direction for the production. The entire production is cast from the membership of Masquers, dramatics fraternity on the campus. The play will run November 4, 5, 6 and 7.

Artillery Sergeant From Shelby May Reach West Point

Sergt. Dawson Of Battery B,
190th Field Artillery, Enters
Preparatory Course

By JOHN BALL
(Special News Correspondent)
CAMP SHELBY, Miss., Oct. 25.—
The fired ambition to become a
West Pointer was a closer realiza-
tion today for Sergeant Dale E.
Dawson of Battery B, 190th Field
Artillery, as he entered the West
Point Preparatory School at Fort
McPherson, Georgia.

During his three years of soldiering
in the Pennsylvania National
Guard and the current tenure of
federal service with the Pennsylv-
ania "big gun" regiment here at
Shelby, Sergeant Dawson, who is
20 years old, aligned a definite goal
before him whereby he might as an
enlisted man apply for entrance to
the United States Military Academy.

Several months ago he went be-
fore an examining board at Ft. Mc-
Pherson and last week was notifi-
ed that he had successfully passed
and to report as a student in the
prep course.

A native of Bellefonte, Pennsylv-
ania, Sergeant Dawson expects
now more than ever, to make the
military his life work and because
of his earnestness and sincere zeal
should complete the work capably
making him a cadet at West Point.

Before leaving Shelby, Sergeant
Dawson was extended the felicita-
tions by the 190th Field Artillery's
Commanding Officer, Colonel Sam-
uel B. Wolfe, who said, "Sergeant
Dawson is a criterion of the type
of ambition to be found among the
personnel of the 190th Field Ar-
tillery Regiment." This young man
has selected a strenuous task—one
that contests the mettle of the
best of soldiers. We have the
greatest confidence in Sergeant
Dawson's ability and we congrat-
ulate this future West Pointer and
wish him the best of good fortune.

Arriving at Fort McPherson
Sergeant Dawson joined another
190th artilleryman who has been
training at the pre-cadet school for
several months. He is Sergeant
Charles L. Sheekler, also of Battery
B. Sgt. Sheekler's home is Miles-
burg, Pa.

First Lieutenant Harry C. Sym-
monds of Bellefonte is the com-
manding officer of Battery B with
First Lieutenant George P. Curtin,
Curtin, Pa., the unit's executive of-
ficer.

Costume prizes were awarded to Mrs. Joseph Flynn, Mary Lou O'Leary, Mrs. Harold Black, Janet Augustine, Mary Lou Flynn, Dennis Tighe and Hugh Daugherty.

Dancing was the main pastime, music being provided by a local orchestra. Entertainment was provided by Mr. and Mrs. Harold Black and vocal selections were offered by grand knight, Francis J. The next regular meeting for the dinner club will be November 4, at 6 o'clock.

**Amazing way
to help run-down
people get new
vitality... pep!**

A truly marvelous change can be brought about by overcoming miserable digestive complaints, underweight, sluggishness and loss of appetite—all by two important steps—

Restore vital digestive juices in the stomach... energize your body with rich, red blood. Here's how!

If you are one of those unfortunate who have been ill, or have suffered with colds, the flu, worked under a strain, failed to eat the proper foods, or have been vexed by overeating worries, yet have no organic trouble or focal infection . . . and your red-blood-cells have become reduced in vitality and number . . . if your stomach digestion refuses to work properly, then here is good news for you! S.S.S. Tonic is especially designed to build back deficient blood strength . . . to revive and stimulate those stomach juices which digest the food so your body can make proper use of it in rebuilding worn-out tissue. These two important results enable you to enjoy the food you eat . . . to make use of it as Nature intended. Thus you may get new vitality . . . pep . . . become animated . . . more attractive!

Feel and look like yourself again

Yes, when you tune up the stomach and get its digestive juices flowing freely, you should enjoy again that old-time zest for food . . . stomach digestive miseries should vanish. S.S.S. Tonic also gives you the mineral matter in soluble and digestive form to restore your blood to its rich, red color . . . this makes for greater strength . . . color in your cheeks . . . resistance against disease attacks.

Because S.S.S. is in liquid form it begins its work as soon as you take it. Make the S.S.S. treatment a part of your daily diet. You will be delighted with results. Scientific research shows that S.S.S. Tonic usually gets results. Thousands and thousands of users have testified to the benefits it has brought to them—that's why so many say "S.S.S. Tonic builds sturdy health and makes you feel like yourself again." © S.S.S. Co.

Will Have Roles In School Play

**Mary Lou Marvin And Robert
O'Neill To Appear In
"Going On Seventeen"**

Robert O'Neill Mary Lou Marvin

Mary Lou Marvin who has been cast for one of the leading roles in the school play, "Going on Seventeen," will play the part of Florence Carhart. As the eligible daughter of the Carhart family, she is, fortunately for the play, both charming and a trifle spoiled. How she loses one suitor and acquires a new one proves to be reason enough for a whole evening's activity on the part of the entire cast. Of course, the romance ramifies.

"Lou" Marvin believes firmly in high school activities and supports a number of the student clubs. Her interests are as varied as her memberships indicate and these include the girls' athletic club, the etiquette club, Girl Reserves and the book review club. She has been selected as squad leader in the school's department of physical education and on occasion has participated in various gymnasium exhibitions. Mary Lou Marvin is the daughter of Mr. and Mrs. H. L. Marvin of Garfield avenue.

Robert O'Neill plays opposite Mary Lou Marvin in the role of Craig Vincent, the Beau Brummel of detectives, tall, suave and exceedingly well-groomed. For he is a detective and figures as the man of mystery in the bank embezzlement case which nearly wrecks the Carhart family. Romance penetrates the mystery and long before the plot has unwound itself to a solution Mary Lou has fallen in love with a seeming villain.

"Oney" O'Neill in his proper person as a senior in the local high school, fits his stage personality except for his seeming villainy. He is and seems to be one of the good citizens of his school community. He, too, likes the student activities. He participates in student-government as one of the hall monitors and has been track manager for the organized interscholastic athletic meets of the spring season. He has membership in the Jolly Good Fellows, the "Q" club and the Senior Hi-Y. Robert O'Neill is the son of Mr. and Mrs. Thomas L. O'Neill of Winslow avenue.

But if so much vice is concentrating at army camps, why is there no appreciable shortage elsewhere?

Relatives Contact Prisoners Of War

**Two Local Families Are Notified Today That Contact
Has Been Made**

Two local families were gladdened today by the news that prisoners of war one of the British and one of the Axis, have been located and contacted through the International Red Cross on inquiries made through the Lawrence County Chapter.

Mrs. Maria Cerofalini, of R. F. D. No. 6, was today notified by the International Red Cross at Geneva, Switzerland, that her brother Lorenzo Bindi, had been located as a prisoner of the British in Egypt, and that he is well. She will be able to contact him by mail.

The other is Mrs. Sigmund Kubenski, of 11 West Madison avenue, who has been informed that Red Cross packages sent to her brother, Wlad Marcuriak, who is in a German camp at Gebrunkenfer, have been received by him.

News Briefs From City Hall

Half a dozen young men were to receive a hearing in police court this afternoon on a charge of disorderly conduct and resisting an officer as the result of an alleged fracas at Croton avenue and East Washington street, at 1:20 a. m. today. It was reported the trouble had its inception in a nearby cafe and was climaxed on the street when Lieutenant of Police George S. Kennedy reported four others attempted to wrest the prisoners from him. Some of them denied the allegation. Kennedy will appear against the youths today.

Council met today in city hall and heard City Engineer Glenn R. Throop describe the alleged unsafe condition of some electric signs which he asserted were erected without regard for the provisions of the ordinance covering signs. Council indicated that an inspector may be employed and the compensation he will receive, paid by fees collected for inspecting the signs. Throop also declared that every sign should be insured so that if it should fall the city will be protected against damage suits.

When council met today in the city hall, representatives of the Greater New Castle Association requested a city donation to help defray the expenses of the Hallowe'en festivities. Councilmen explained that under existing law the city cannot appropriate money excepting for music. However, Mayor Charles B. Mayne said he would make a personal donation of \$25.00 and City Clerk C. Ed. Brown also donated to the cause. Incidentally, Brown declared that the Hallowe'en celebration was inaugurated here by the late City Detective C. G. Logan and he during the administration of the late Mayor Harry Lusk.

Eloquent Tribute To Feuchtwanger

**B'nai B'rith Salutes Leading

On Taxes**

B'nai B'rith members observed "Marcus Feuchtwanger Night" at their meeting in the Cosmo club last night. Abe Levine, past president of the local organization, paid eloquent tribute to the honor guest's 50 years of B'nai B'rith service.

Another speaker was Pat Love, brother of N. J. Love, B'nai B'rith secretary, who discussed "Taxes in 1941." Pat Love, now of Pittsburgh, was a member of the same Sunday school class that Mr. and Mrs. Marcus Feuchtwanger attended years ago.

(BULLETIN)
(International News Service)
WASHINGTON, Oct. 30.—Secretary of the Treasury Morgenthau announced today that a program to greatly increase Social Security taxes will be ready for congressional consideration soon.

He stated that the new Social Security program, including large increases in payroll taxes, is being designed as an anti-inflation measure, to draw off "excess" purchasing power resulting from defense spending.

Morgenthau told a press conference that Social Security collections must be viewed as one facet of the larger picture of the entire federal fiscal program.

Mrs. Brenner Is Candidate For School Director

MRS. JUANITA J. BRENNER

Mrs. Brenner is a candidate for School Director wishes to make the following statement:

I have resided in New Castle for twenty-eight years on the "East Side," and am a taxpayer. I am the mother of three children. Today as never before, women are interested in where their children are going educationally. I believe the school board is the place of primary importance where a woman can render efficient service through her experience in the management of the home and her close contact with children and their problems.

Since the majority of our professional school employees are women, I feel a woman can more intimately contact them and that there should be at least one woman on every school board. Ten per cent of the school directors in the commonwealth of Pennsylvania are women.

A school director's service is a service without pay and is one which demands time, energy, thought and courage. The business of school administration, its educational policies, the efficiency of its employees must be so directed that the taxpayer's dollars shall be spent to secure the best without sacrificing high standards.

I have always been interested in and taken an active part in the welfare of children and youth and have an honest desire to serve my community.

I deeply appreciate the support given me in the primaries and wish to thank the many voters who gave me their vote and ask them to support me again in the general election.

Signed:
JUANITA J. BRENNER, (MRS.)

Manufacturers To See Train Showing Defense Equipment

To Be Given Information If Plants Are Suitable For Production

ELLWOOD CITY, Oct. 30.—Ellwood manufacturers will go to Pittsburgh on Tuesday, November 11, where they will visit a special defense train bearing equipment needed for national defense.

Officers and other representatives of the Army, the Navy, the Maritime Commission and the OPM will be aboard. They will give Ellwood City manufacturers definite information as to whether their plants appear suited for defense production and, if so, how to go after defense work. In some instances the train staff will initiate negotiations which, carried through at regular offices of the services in the field, will result in contracts.

Edwin W. Graff, advance engineer for the train, completed arrangements for the visit in conference here with Chamber Secretary Denny Schill.

The volume of work to be carried on in the train will make it impossible to admit the public also but a limited number of city officials, civic leaders and representatives of the press and radio will be invited aboard at 8:50 a. m. on Tuesday, before conferences with manufacturers begin.

Interview with the manufacturers will begin at 9 a. m. and continue until 5 p. m. with no mid-day interruption. Factory owners will be assigned definite hours for their visits in order to avoid congestion. Since interviews and examination of defense samples will require an hour's time in many instances, the last will be admitted at 4 p. m.

The train will consist of six cars equipped with defense samples and conference tables, and two cars of living quarters. Aboard will be 16 Army officers, nine Navy officers and representatives of the Maritime Commission, and eight representatives of the OPM. This staff will be augmented by representatives of the OPM Contract Distribution Division field office at Pittsburgh and representatives of the following field offices of the services: M. S. Sloman at Wheeling, West Virginia.

Services represented on the train by officers and exhibits will include the Army Air Corps, Ordnance Department, Quartermaster Corps, Signal Corps, Corps of Engineers, Chemical Warfare Service, Medical Corps, Marine Corps, various procurement branches of the Navy and the Maritime Commission. The defense special visiting Pittsburgh will be one of the three touring the country to supply essential information regarding defense production needs in areas where full information and exhibits are not normally available. The train staff will endeavor to determine what type of defense equipment manufacturers are capable of producing and guide these to defense contractors who have work to let under subcontracts or to the proper government procurement officers or OPM Contract Distribution Division field offices.

Taking the part of news commentators, Paul Hough and Fred Knight gave an interesting history of the present world conflict and predictions of its outcome. Comments from the audience, a number of which were isolationists and interventionists, added much interest to the novel program.

The 10-month music war was started when ASCAP pulled its songs off the air in a dispute over royalties on use of its copyrighted music. The withdrawal was made when the radio chains objected to new rate schedules.

Chest Drive Is Extended

Will Continue To November 8—Fund Is Now Over \$8,000

ELLWOOD CITY, Oct. 30.—Community Chest totals up until this morning reached the \$8,600.31 mark. Merchants contributions help to swell this total over yesterday's mark along with club donations from the W. B. A., Sons of Veterans Auxiliary, Girl Scout Troop No. 4, Ellwood City Aerle No. 1246 of the F. O. E. and the Womens Club. George Colas, a manager of the National Lunch holds the record of the largest employee donation of the merchants up to the present time.

Due to a great many requests from individuals and clubs the chest officials of the drive conferred late yesterday afternoon and decided to extend the drive for another week. This means the drive will officially end on Saturday, November 8. With pay day in the community tomorrow a great many contributions are expected to be brought into the chest headquarters at the Chamber of Commerce. A great many clubs and church classes have not made their chest contributions as yet and they are urged to have their treasurers hand their contributions in. House to house canvassers are requested to follow up their territory tomorrow so that a complete report on the house to house solicitation might be given. Chest officials are confident that Ellwood City will rally this next week and pull the chest fund up to the showing that progressive Ellwood City should do.

CAN'T KEEP GRANDMA IN HER CHAIR

She's as Lively as a Youngster—Now her Backache is better

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

"Almira Home Day" Exceeds Past Year In Donation Results

Past Records Broken In Donations Received At Almira Home On Oct. 29
"Donation Day"

New Castle residents responded exceedingly well and most generously, making the annual "Donation Day" on Wednesday, Oct. 29, at the Almira Home a record-breaking occasion for which the officers and committee in charge are deeply grateful.

Mrs. Walter W. Braham, chairman this year, was ably assisted by her committee composed of Mrs. Ray Robison, Mrs. C. E. Trainor and Mrs. James D. Crawford. Officers of the Almira Home board also contributed much of their time and effort, this group including Mrs. H. C. Harper, president; Mrs. George Balph, vice president; Mrs. Carrie Agnew, treasurer; Mrs. B. F. Butler, recording secretary; Mrs. C. E. Trainor, corresponding secretary.

The food donations were very large, with 810 pounds of sugar being thus far received, four bushels of potatoes, four bushels of apples, two bushels of carrots, one bushel of cabbage and many more, which are still coming in. The jars of home canned fruits, preserves and jellies number several hundred, these items filling one room completely. This count has not yet been completed.

Special mention is given Grove City, for each year their contributions are most generous, including large quantities of canned goods gathered in by ladies of that city. This year was no exception for them.

In addition, many nice sums of money were donated for the "Donation Day" purpose, and Mrs. Rose Brown, matron of the Almira Home, states they will undoubtedly be receiving additional donations for the next three or four days, as cars are expected from Zellenople, Evans City and Slippery Rock.

The Almira Home is kept for four counties: Butler, Mercer, Venango and Lawrence, and cities in any of these are always counted among those who donate.

"While each year the donations have been large, this year exceeds all records," Mrs. Braham states, "and those in charge who worked diligently for this goal are most appreciative to New Castle residents and the many others who made it such a fine success with their contributions."

Great Britain has about one billion dollars invested in Germany and German-occupied countries, the Department of Commerce reported.

Many In Army Service Are Being Discharged

(International News Service)
CAMDEN, S. C., Oct. 30.—By Jan. 1, 1942, 1,230 officers of field grade, including Pennsylvania's Major General Edward Martin, and 56,618 enlisted men of the first army will be retired or discharged, it was announced today at headquarters for the first army.

An unspecified number of junior grade officers will be affected under the war department order which includes mainly those officers who have aged in grade and are no longer eligible for line work.

Some of the affected officers will be transferred to administrative duties, it was said.

Enlisted men are being discharged from the army under three classifications, those whose enlistments have expired, dependency and hardship cases, and selective service and National Guardsmen who have reached their 28th birthdays and have requested release.

In the age-in-grade retirements from the first army are two major generals, Milton A. Reckford, commander of the 29th Division comprising National Guard troops from Virginia, District of Columbia and Pennsylvania, and Edward Martin, commander of the 28th Division from Pennsylvania.

The 28th Division also loses Brig. Gen. A. O. King, Infantry Brigade commander.

The enlisted men affected are in the first, second and third coast artillery districts as well as those in the field with the first army in maneuvers.

The age-in-grade retirements include 45 colonels, mostly regimental commanders and chiefs of staff; 84 lieutenant colonels, staff officers and battalion commanders, and 98 majors, mostly battalion executives and staff officers.

OPPOSE "XMAS"
ORANBERG, S. C.
October 25, 1941

Dear Editor:
"Xmas" is all washed up. Christmas is here to stay. The American public is fed up with crossing Christ out of Christmas.

Dozens of outstanding dailies over the nation have come to our aid, helping us to blot out the abbreviation of Christmas. Many have been generous enough to write to us, all pleading their co-operation. Many have admitted that in all past they have been guilty of permitting "Xmas" to creep in their papers now and then, but each insists that it will happen no more.

Your editorial writers are doing a great job. Friends from over the nation have been nice enough to send me copies of different editorials. Frankly, with co-operation success in our crusade is a certainty. You should see the letters we have received. Old John Q. Public is taking an active part, urging that we do all in our power to see the crusade through. Naturally, since we started the ball rolling we feel that we have an obligation and that it must be fulfilled.

I am afraid that many of you are in sympathy with this "X-terminating" of Xmas, but feel that it is hopeless. Nothing is without hope with such co-operation as we are receiving. Two of the top magazines of the nation are planning to help us with articles, other organizations are doing their part, and I sincerely hope that more of you editors will lend us a hand.

As Americans we always stand ready to fight for our sacred free press. Please help us free the world of "Xmas".

Sincerely yours,
OPIE L. SHELTON

Declares Peru Is Fully Supporting U. S. Foreign Policy

Lima Banking Official Says There Is No Danger Of Nazi Fifth Column

(International News Service)
CHICAGO, Oct. 30.—"The people and the government of Peru are solidly with the foreign stand of the United States as expressed by

President Roosevelt, and Nazi machinations can have no effect upon it."

This is what Enrico Novak, a delegate to the Foreign Trade Conference of all American countries of the Western Hemisphere, to be held in New York, and a banking official of Lima, Peru, said recently while the guest of the American Czechoslovak Chamber of Commerce in Chicago.

He said: "Peru is the land of milk and honey with a people who love peace but who love freedom, human rights and their civilization and way of life even more."

"Under wise direction based upon experience and careful surveys, our Peruvian businessmen and our government are working out a relationship which will be advantageous to both Peru and the United States whether there is a war or not."

The program will produce for export to the United States and other countries of the Western Hemisphere commodities which will not compete with those produced in those countries.

Paul Taylor Is Instructor At Zanesville Port

Former Local Flier Spending Day Visiting Friends At Airport Here

Paul Taylor, former local flier and instructor, and the present manager and flight instructor at the Zanesville, O. Airport, is spending the day visiting his many friends at the local airport and relatives in the city.

Taylor flew in this morning from Zanesville, flying a Taylorcraft monoplane. Before landing at the local port, Taylor made several circles over the city about 7:30 o'clock this morning and attracted considerable attention from early morning risers.

Local people will remember Taylor, who a few years ago held the honor of being the youngest flier in Lawrence county, having started his flying career at the age of 11 years.

More American tourists visited Canada this year than in the two preceding years, the Department of Commerce reported.

BRITISH BECOMING THIRSTY

LONDON, Oct. 30.—Britain is becoming a thirsty country. The nation's receipts from beer, wine and spirits have gone up more than \$200,000,000 since the beginning of the war. Revenue from the sale of tobacco has gone up the same amount.

Tea too is bringing the government a greatly increased revenue; an increase of \$5,000,000 over last year's income has been noted.

Since the war-time "purchase tax" was installed one year ago, it has netted just over \$100,000,000.

The question is not whether we should arm merchant ships, but whether such arming ever saved a ship from a sub.

Have Long Winning Streaks
Connellsville, Mt. Lebanon and Turtle Creek, all from the western end of the state, and hot on the trail of New Castle for the W. P. I. A. L. Class AA honors have each won six games, tied none and lost none. The eastern teams outnumbered by Berwick High with 239 points, Connellsville with 190 points, six to five, Plymouth High has the longest winning streak of 22 consecutive games, while New Castle sports 18 straight without a blemish.

Berwick Top Scorers
While the "Red Hurricanes" of New Castle have the best record they are not the top ranking team in regard to scoring of points, being topped by Berwick High with 239 points, Connellsville with 190 points, six to five, Plymouth High has the longest winning streak of 22 consecutive games, while New Castle sports 18 straight without a blemish.

State Title Just Ahead
New Castle High, playing an 11-game schedule will no doubt, be declared the state champions at the end of the season, as very few high school teams play this number of games. New Castle has three games remaining on the 1941 card, with Scott High of North Braddock, Warren Harding of Warren, O., and Ohio and Youngstown East High, three very big hurdles for any man's football team.

New Castle is dreaming of the state championship, but not daydreaming. Coach Philip H. Bridenbaugh who is in the habit of turning out championship and near-championship teams in New Castle's backyard is a graduate of Franklin-Marshall college. New Castle has won 29 games out of 256 games played since 1922.

Undeclared teams which have played five or more games this year include:

Titan Harriers To Meet Geneva

(Special To The News)

WESTMINSTER, Oct. 30.—Westminster's championship cross-country team will be out to make it four in a row this Saturday over the New Westminster course, with Geneva as their opposition.

In previous meets, the Titan harriers have disposed of Slippery Rock, Hiram, and Thiel; and expect to go through the season undefeated.

November 22 has been scheduled for the second annual cross-country tri-state championship meet at Westminster. Last year, the Titans won the first tri-state meet, held at Bethany.

Coach Joe Ferris expects his two top-notch runners Jim Edwards and Myron Wheeler to place first and second in the meet, with Al Trafton, New York freshman, coming in not far behind.

PEARSON PING PONG TEAM IS VICTORIOUS

ELEVEN IRON MEN

Only eleven men played for Michigan and Illinois in 1935 when Lenny Friedman's place kick won for the Wolverines in the Illinois stadium.

SHIFTED TO GUARD.

NEW HAVEN—Because Yale has nine backs, big Jim Whitmore has been shifted to blocking guard.

TONY TO STAY.

NEW YORK—Tony Cuccinello again will manage the New York Giants' Jersey City farm club.

HERE AND THERE IN SPORTS LAND

Fred Corcoran, tournament director for National Pro Golfers Association, discloses there was \$200,000 disbursed in prize money in '41 tournaments. Broadway bookies are offering 3 to 1 on Notre Dame to defeat Army in Saturday's grid clash. Promoter Mike Jacobs has discarded the scheduled November 21 middleweight title bout between Billy Soose and Ken Overlin. The Jockey club has forbidden betting in today's running of the \$10,000 Pimlico Special at Baltimore. Paul Moss, who he says will now handle his own fights, Larry MacPhail today announced new deals underway to make Brooklyn Dodgers another pennant contender.

Cut Above Eye Beats Baxter

Local Fighter Winning By Wide Margin When Accident Occurs

WILLIAMS FAILS TO FIGHT LEASURE

Russell Baxter local middleweight today is accredited with having been stopped technically last night by Johnny Watson of Brownsville in the second round in The Arena. However, the local boxer was winning when one of Watson's blows opened a nasty appearing cut above Baxter's right eye and Referee Sam Leyschok stopped the bout.

He did not put an end to hostilities because Russell was in no danger of a kayo. He acted because he feared that another wallop might lengthen the cut.

In the first round Watson looked good when he landed two solid rights to the jaw. However, Baxter landed a beautiful right to Watson's jaw in retaliation and in the second he was giving Watson a boxing lesson when the blow above the eye inflicted the gash, was delivered.

Leasure was supposed to box Chet Williams, runner-up for the national A. A. U. middleweight title, but Williams, who is engaged in a national defense industry, was perfunctory to "lay off". He did not notify the Jefferson A. C. until after 3 p. m., hence the bout had to be cancelled.

Newkirk Wins By K. O.

Benny Newkirk, 140, this city, appeared good in stopping Joey Wright of Erie in the second round. A solid right flush to Wright's jaw dropped the colored fighter.

Al Leasure, also of this city, a 130-pounder, came through with a technical knockout over Johnny Komolof of Brownsville in the first round of their scheduled three-round whirl.

George Stenko of Erie decisioned his heavyweight opponent, Chet Green of Youngstown. Green was down a couple of times and had Stenko not injected a lot of clowning into the right he might have won by a knockout.

Mello Donello of Niles, 135, a head shorter than Carl Jones, Brownsville, carried the fight to Jones but Carl's boxing ability proved too much for Mello, despite his having shaken up Jones in the first round.

Gene Blatario, Ashtabula, decisioned Tommy Komolof of Brownsville at 112 in the opening bout and Billy Ryman, Niles, 135, looked good in winning the three-round decision from Carl Buckner of Erie. Billy Grumback of Youngstown scored a TKO over Bobby Quirk of Erie in the third round in a 155-pound fight.

The Jefferson A. C. staged the fights. The referee was Sam Leyschok of Erie and judges, Phil Greer and Billy Fazzone of this city. Carl Cialella was the time-keeper.

William Talbot of Rochester represented the state athletic commission with Arch Cuno, who formerly held the position, acting as his assistant. Cuno has been reappointed to the job. It was reported, Ed Fritz represented the A. A. U. and Charles Walther was the announcer.

Soose And His Manager Part

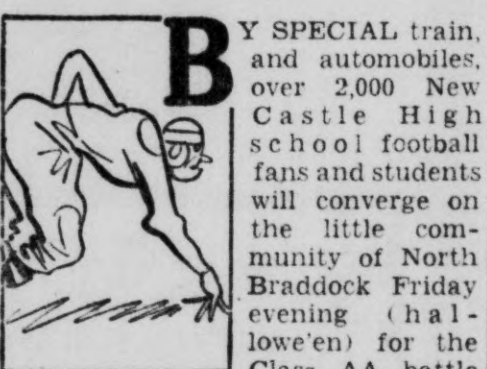

(International News Service)

NEW YORK, Oct. 30.—The Damon and Pythias of the canyon of clout, Fighter Billy Soose and Manager Paul Moss, came to a friendly parting of the ways today, and Moss said he believes it is for the best as far as Soose is concerned. "I coddled Billy, too much," Moss said shortly before making last arrangements to leave here and accept a position with a Hollywood movie studio as a scenario writer. "With me away from him, perhaps he will be able to go out on his own and do better."

New Castle Will Send Over 2,000 To Scott Battle

Interest In Class AA Game At North Braddock Friday At Fever Heat Here

Pennsy Special Will Carry 1,000 Or More, Automobile Route Is Mapped Out

BY SPECIAL train and automobiles, over 2,000 New Castle High school football fans and students will converge on the little community of North Braddock Friday evening (hal-lowe'en) for the Class AA battle that brings together New Castle's "Red Hurricane" grid machine and the Scott High eleven. The kickoff is slated for 8 o'clock. A sellout crowd is indicated at the Scott stadium.

New Castle will be well represented, no doubt of that. The Castle High band, one of the finest in the entire state, under Prof. Joe Replogle, will ride the Pennsy Special train to Braddock and are being given featured publicity by the Braddock press.

Safety Is Promised

It was indicated today that over 1,000 fans and students, along with the band will be on the Pennsy train that pulls out from the West Side station at 5:45 on the dot. This will be one of the best and biggest football special trains ever run, according to Charles "Chuck" Wetmore, Pennsy passenger agent who will see to it that the train is well policed and that everything in his power will be done to make the trip a pleasant and safe one to and from the game.

The sale of tickets here for the Scott-New Castle game has been heavy, so heavy in fact that only a few tickets are left of the 1,500 that the Sporting Goods store had for sale.

Not In Best Shape

While the townspeople are working themselves into a frenzy over this coming battle at Scott High, the New Castle High eleven is hard at work at Taggart Stadium, getting ready for the big show.

Head Coach Phil Bridenbaugh revealed today that five of his regular starting eleven are ailing and a few of them may not see any action in the Scott game—Zubkowsky and Parou, the two regular ends; Masters, a guard; Genkinger, the center, and Bob Doster, the colored right-half, are the injured members.

Doster will not start the game and in his place "Bridy" has H. Burris, Nickum or Red Ross to fill the vacant spot, but he suffered a leg injury in practice last night and will not be available. Genkinger is slated to start at center, but not in there very long, it was indicated.

The New Castle High team will

Auto Route Mapped

For the benefit of the fans and students who will drive to the game on Friday night, Bernard Hanlon, secretary of the Automobile association, has mapped the shortest and best route to take to get to North Braddock. The distance is approximately 65 miles.

The route from New Castle: Take 422 to Portersville, then take Route 19 (Perry Highway) through Zelienople, Warrendale and Wexford to the first intersection beyond the Pines restaurant; turn left, to the foot of the hill to Keown Station.

Turn right on Babcock boulevard, Route 805, and follow to Millvale. Turn left on Stanton avenue to East Ohio street, turn right on (28) East Ohio street to George Washington crossing (40th street bridge), turn left on 40th street and follow to Penn avenue. Turn left on Penn avenue and follow to East Liberty and on to Braddock avenue. Turn right on Braddock avenue and follow into North Braddock.

Lawrence County Baseball Managers Will Meet Monday

The Lawrence county baseball managers and officials will have their final meeting of the season at the Sporting Goods store at 7 o'clock on Monday evening. It was announced today by Secretary Jim Martin.

Soose Unable To Make Middleweight Class Anymore, Bout With Oyerlin Is Off

By JACK MAHON

NEW YORK, Oct. 30.—The fifteen round middleweight title bout between Billy Soose and Ken Overlin, scheduled for Nov. 21 at Madison Square Garden is out and will be replaced by an Overlin-Al Hostak match. It was announced by Promoter Mike Jacobs today. Mike said that Soose will arrive in town either today or tomorrow and formally abandon the crown he won from Overlin on a highly disputed decision earlier in the year.

Mike, sun tanned and in good spirits after a two-week Miami vacation and a quick look at the advance sale for tomorrow night's Fritzie Zwick-Ray Robinson fight at the Garden, said he planned to make the Nov. 21 show an all-star affair.

Can't Make Weight

"Soose can't make the 160 pound limit any more," he said, confirming an INS story of last week which predicted the abdication of the middleweight throne, "and he's going to the commission this week to give up his title. I plan to put young Al McCoy of Detroit in there in the semi-final with some good opposition. Haven't made up my mind yet who it will be."

"The Hostak-Overlin match is set," continued the 20th century sporting club boss. "Overlin now weighs about 170 pounds and Hostak, who is from Seattle has been trying to get a Garden match as a light-heavyweight for a long time. It ought to be a good fight for Hostak is a terrific puncher."

Joe Simari, the Bessemer line-

man who was kicked in the head last Saturday, won't play football for the remainder of the year. The lad was not injured seriously. For safety sake, school officials deemed it wise for Simari to watch the remaining games from the sidelines.

That 49-14 whipping Illinois suffered at the hands of Notre Dame last week-end, represents the worst shellacking ever absorbed by a Bob Zupke-coached Illinois team.

Northwestern University has never finished a football season in the undefeated and untied bracket.

Good logic: Wearing No. 25 in high school, Bud Seelinger scored 25 times in one season. When he entered Wisconsin, the optimistic athletic council promptly assigned him uniform No. 43.

RUCKEY BULWARK.

COLUMBUS—Jim Daniell, veteran tackle of the Ohio State Buckeyes, is 215 pounds of trouble for the opposition. Jim's brother, Averill, was an All-American at Pitt a few years ago.

MARQUETTE PITCHER.

MILWAUKEE—Jimmy Richardson, Marquette pigskin flinger ranks among the deadliest passers in collegiate football this season. Jimmy also is light on feet.

SPORTS WORLD RAMBLINGS

Sports short-ez about this and that—

What has happened to Richard Shellogg? The answer was found today in a brochure sent to this desk by the famous Chicago Bears. The attractive booklet shows that the local athlete is playing professional football with the Newark (N. J.) Bears, the Chicago Bears' farm club. Shellogg is filling a tackle berth. He's tipping the beams at 235 pounds.

Dapper Harry "Chick" Cohen, who played a bit of football in a Westminster moleskin, has returned from Columbus, Ohio, singing the praises of Paul Brown and his Ohio State eleven. Cohen, who has been watching Buckeye teams come and go for the past 10 seasons, avers that the present crop is the best he has seen, despite the fact that Brown's material is nothing like the brand that graced the rosters of some of his predecessors.

Paul Minner, who can't compete in Lawrence County Class B basketball because he played professional baseball in Knoxville and in Elizabethton during the past season, is still a schoolboy. He's completing high school studies at New Wilmington high, the institution from which he gained "rams and reams" of notices in the district's sports sheets.

Joe Simari, the Bessemer line-man who was kicked in the head last Saturday, won't play football for the remainder of the year. The lad was not injured seriously. For safety sake, school officials deemed it wise for Simari to watch the remaining games from the sidelines.

Shenango-Bessemer Title Game Friday Stirs Grid Addicts

Record Crowd May See
Game On Shenango Field;
Starts At 2 O'Clock

BOTH AGGREGATIONS
IN FINE CONDITION

FOOTBALL interest will soar to stratospheric heights by 2 o'clock Friday afternoon when the keen-eyed teams of Shenango Township and Bessemer High clash on Shenango field for the 1941 Lawrence County Class B championship.

The approaching tussle has stirred so much interest that the biggest gallery in the history of East New Castle football promises to be on hand by the time the anxious athletes hear the shrill of the starting whistle.

Long Time Champs
The smooth-functioning Bessemer eleven defends the coveted toga for the ninth consecutive season. On a rain-soaked gridiron, the Eighth City team garnered its eighth straight crown by bowling over Shenango, 13-0, a year ago almost to the day.

Bessemer's lineup will be minus Simari, who was kicked in the head last Saturday and possibly Gatto, a star kicker, and Grubisa. Simari won't play football for the rest of the season, Coach A. G. Capenetti said today. Gatto and Grubisa may see action in the big clash. Aside from this, the champs are reported to be in streamlined condition, physically.

Bessemer is banking considerably on its stonewall line. The pillars up front have stymied some of the classiest runners in the district. "Against a classy group of runners such as Shenango boasts, my line will have a busy afternoon," Capenetti opined.

So far, Bessemer has defeated Union Township, Sharpsburg, tied Scienceville and lost to Hubbard, O., 19-0. Bob Navarra and Grubisa, a doubtful starter, are high-voltage backs. If Gatto does not get into the fray, Bessemer may miss his lofty ground-eating kicks.

Shenango Pricked
Shenango's "Wildcats" will be at full strength for the top game of the year. "With the exception of Semansky, who has been troubled a bit by a nose ailment, my squad is physically fit and raring to go. Win or lose, Shenango will give Bessemer a fight," Coach Frank Nocera asserted.

Mike Stoltica and Andy Semansky form Shenango's main backfield men. In addition to lugging the air-jammed leather, Stoltica punts as good as any high school griddier in Lawrence county. Semansky is a duplicate of "Bill" Osmanski. Pete Moran is a gone-with-the-wind type.

of runner Stilt, who made such a fine showing against Union, has been elevated to the varsity backfield.

Shenango's line is comprised of seven panther-line frontiersmen. Staph, at center, is an excellent center as well as a fine backer-upper. Bessemer's wall will out-weight the Shenango line.

To date, Shenango has defeated Evans City and Freedom, and was nosed out by Sharpsville and Freedom. Last week, Shenango tied Union, 6-6, to set up the title game tomorrow.

BRITISH 'ROLL THEIR OWN'
LONDON, Oct. 30.—Fast becoming desperate, London cigarette smokers have devised still another effort to "beat the shortage." The aged roll-your-own method is the trick, and is being practiced more and more all over the city. It is easy to spot the novices, though, they inevitably make a poor job of it.

The most successful of men are those who have been able to buy a rolling machine. These gadgets, however, are fast disappearing, and Londoners are speculating on possible future moves to counteract the ever-decreasing tobacco supply.

Practically all important industrial establishments in Free China provide food and housing for their employees, the Department of Commerce says.

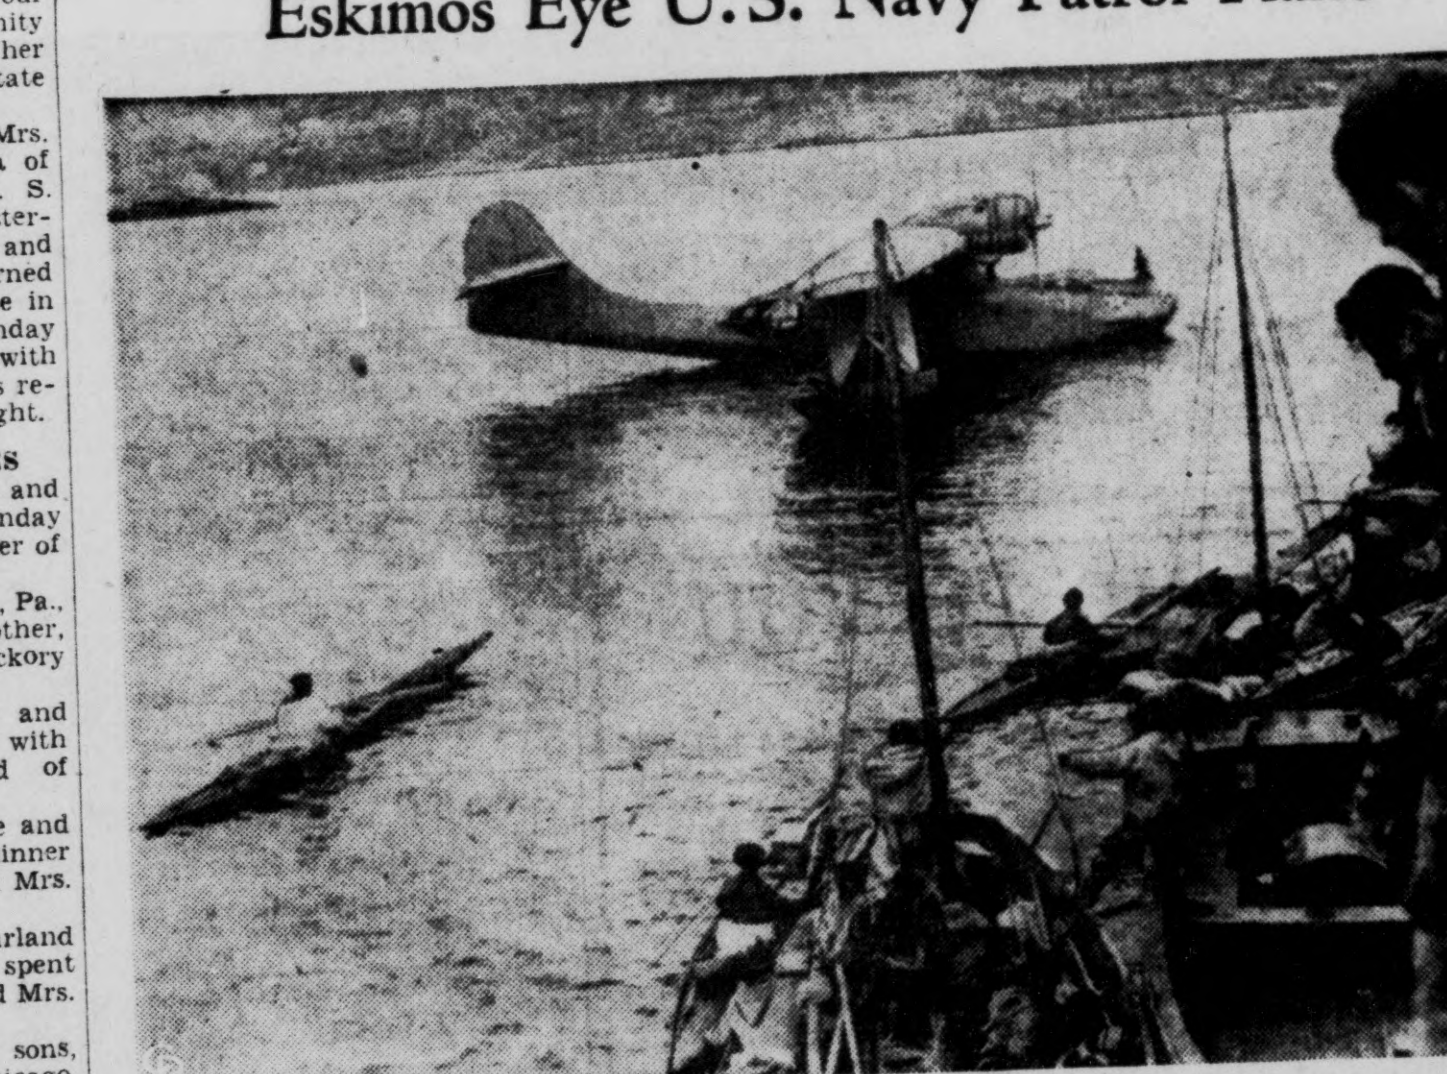

A soldier requires about one-half bale of cotton a year, ten times more than the average civilian, the Department of Commerce says.

Eskimos Eye U.S. Navy Patrol Plane

At an unidentified Hudson Bay Post a U. S. Navy PBY plane of the North Atlantic Patrol comes in for close scrutiny by Eskimos. The natives have seen other planes before but they are hopeful the crew may have some tin cans to spare, which can be converted into weapons or utensils. This is a U. S. Navy photo.

AROUND CITY HALL

If you are a taxpayer and would enjoy a term in "Ingham College," an institution somewhat famous along Underworld alley, all you need to do is to frequently become pig-gishly drunk, sell the property of someone else or caress another on the pate with a beer bottle, ball bat or what have you.

It appears that several persons here now sufficient "credits" in the May 5, 1940-October 23, 1941 period to enjoy many paid for vacations in "Ingham College." In fact, we sorta believe that we e the deans, to miss some of them they would look high and low to discover why their absence.

During that period, 149 persons (that certainly is a small number sent to the county's college for a period of 16 months) were given "passing marks" by "Professors" Charles B. Mayne in city police court. The "passing marks" took the form of sentences—the 149 drawing 1,168 days in "Ingham College."

Regrettably, a big majority of the 149 didn't appreciate the paid for vacation but four of them did; two of them so greatly, in fact, they won a total of 11 stays in "Ingham's institution" for a total of more than 250 days in 16 months. However, Mr. Taxpayer will pay for this \$148.

Another man, once a success in life but unfortunately now a habitue of Derelict row, has drawn nine vacations during that period. He will cost the city \$60.50 while the champion woman "goer to jail" with five vacations, will cost the city \$44. These statistics were unveiled today from a long official sheet sent by county commissioners to city council asking Pa Newe to pay to the county \$1,129.00, for the care of prisoners in the county jail during that period. The dun is being checked and no doubt will be paid soon.

It did not require a contractor long to lay a cushion and black top surface in Cascade street between Coolidge and Croton avenues, and according to city officials, the job apparently was one of the quickest performed and may prove one of the best in some time. There is a three-foot wide berm on each side of the road. The rock base had been put in some time ago, and when the contractor's equipment reached the job employees required slightly more than a day to lay the top.

All of the temporary policemen here are undergoing a course in police work at the State Teachers school, Slippery Rock. There are approximately a half dozen taking the course.

John W. Cartwright, city assessor, has arranged a card system in his office whereby youths who have gone into military or naval service of our country will not have assessment cards sent to their homes. Not so long ago council went on record as favoring such a record and exonerating the youths from occupational tax while in service.

As soon as a sanction is received, two-way radio telephone service between cruiser car No. 3, police department and police headquarters will be placed in service. The system was installed weeks ago, and only approval of the proper federal authority is lacking.

Although it is not generally known outside this city, the fact remains this city's police bureau is considered by the FBI one of the most up-to-date in this section. Photographs and fingerprints of almost every person arrested, excepting on a minor charge, are kept on file, another set sent to the FBI in the Department of Justice, Washington, and a third set is sent to the state motor police at Butler.

War conditions have adversely affected the important pineapple industry of British Malaya, according to the Department of Commerce.

Stock Market Is Irregular

Changes Are Limited To Fractions In Most Transactions Of Day

(International News Service)
NEW YORK, Oct. 30.—The stock market drifted irregularly lower in dull dealings today. While changes generally were limited to fractions, several issues, notably in tobacco and utilities, slipped to new lows for the year.

Turnover for the first hour was 110,000 shares. Prices were mixed at the opening. There was little variation as the session progressed, although minus signs ruled around midday.

Among stocks to slip into new low ground were Commonwealth Edison, Public Service of N. J., American Tobacco "B" and common, General Electric, Montgomery Ward, Dome Mines, Libbey-Owens-Ford and Flintkote.

Anacoda, Chrysler, Standard Oil of N. J., International Harvester, American Telephone, Union Carbide, Sears Roebuck and American Can gave up fractions.

Lima Locomotive was independently strong, running up more than 2 points. J. I. Case, American Airlines and Dow Chemical each advanced a point or more.

Steels were firm, particularly U. S. Steel on a rise of almost a point.

AIRLINER CRASH IN MINNESOTA IS FATAL TO 14

o'clock last night, and the crash occurred shortly after 2 a. m. Cause of the accident was not known. Police headquarters in Moorhead said "several persons" apparently witnessed the accident, and from incomplete reports it appeared the ship was in trouble and that the pilot was endeavoring to land on the gun club property, which stretches out in a level field except at a point where it is broken by a deep ravine.

The ship headed down to the field, straightened out when com-

LONG RECORD OF SAFETY BROKEN

MINNEAPOLIS, Oct. 30.—Today's crash of a Chicago-to-Seattle plane of Northwest Airlines near Moorhead, Minn., in which 14 persons were killed, was the company's first fatal accident in almost 95,000,000 passenger miles, the airline stated.

Until today, the line had flown 94,800,998 passenger miles without a fatality, and last May the company was awarded its fourth medal in five years by the national safety council for its long record of safe flying.

paratively low and headed for the ravine. It was surmised the pilot did not see the ravine until the last moment, for suddenly the ship's motors roared, the plane rose briefly to clear the gully, and then plunged into the ground.

First persons to reach the scene found the wreck enveloped in flames. Capt. Bates was a short distance away, too dazed to give any account of what had happened.

List Of Victims
The dead, as announced by Northwest Airlines in Chicago, were:

Alden Omsgard, first officer, of Minneapolis.

Bernice Blowers, stewardess, of Welcome, Minn.

R. W. Ramsey, passenger, of North Canton, O.

Ned Wells, passenger, of Fargo, N. D.

Ed King, passenger, of Fargo, N. D.

H. G. Klopp, passenger, of Spokane, Wash.

L. E. Carr, airline employe and passenger, of Chicago.

C. W. Farup, passenger, of Grand Forks, N. D.

A. F. Simonson, passenger, of Grand Forks.

Frederick R. Lowell, 35, passenger, of Springfield, O.

Mrs. Joe Packard, passenger, of Philadelphia or Washington, D. C.

W. A. Metzger, passenger, Royal Typewriter Co., representative, of New York City.

Mrs. H. Ford, passenger, of Minneapolis or Fargo.

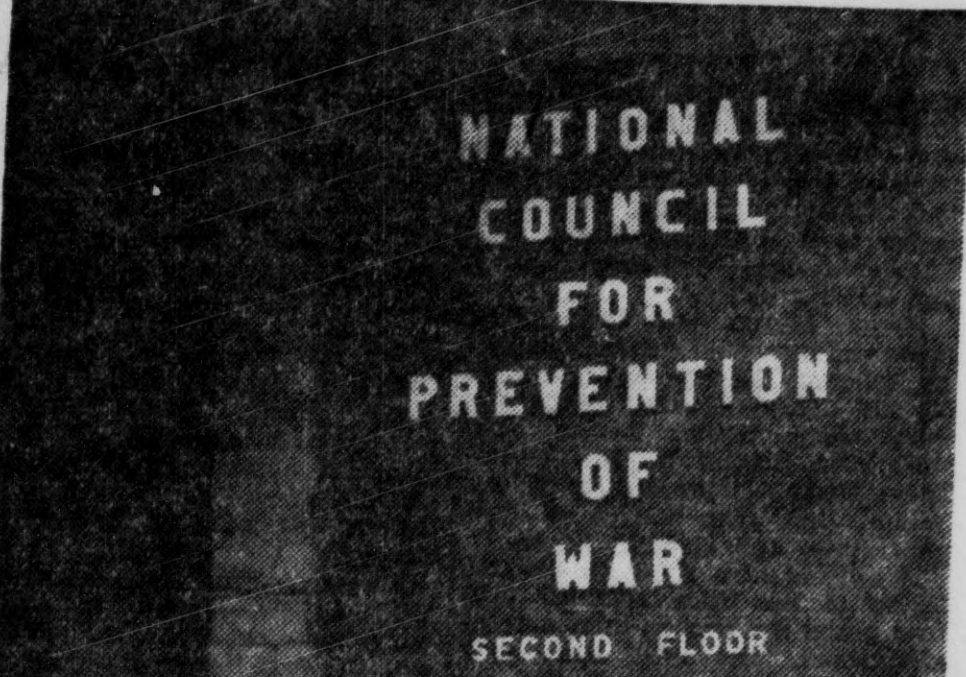

A. H. Brown, passenger, of Billings, Mont.

Moorhead is about 225 miles northwest of Minneapolis, where the airliner made its last scheduled stop and picked up two additional passengers, Mrs. Ford and Brown.

Another airliner took off for the crash scene from Minneapolis, carrying company officials and other investigators. Pending their examination of the wreckage, there was no information as to the possible cause of the accident.

Epworth Church Services Close

Series Sponsored By Women's Society Of Christian Service Proves Successful

A most successful series of services was conducted Wednesday night at Epworth church with the Rev. Charles Aldrich, pastor of the Methodist church at Slippery Rock, giving an impressive address on "The Light of the World." The devotionals were in charge of Mrs. Wayne Stutinger.

Leading up to last night's meeting, other meetings of a similar character had been held in the church and in the homes of the parish, all of which had been usually helpful. The Women's Society of Christian Service, directed by Mrs. J. F. Rentz, sponsored and arranged the meetings.

At the close of last night's service Rev. W. A. Thornton thanked the society for rendering such an outstanding service to the church and announced that the meetings would be used as an inspirational basis for a church loyalty and attendance program which would be observed by the church and church school from Sunday, November 9, to December 14.

Members Of Girl Scout Troop Take Over City Hall Offices

Members of Girl Scout Troop 27, Miss Edith Cleveland, leader, and Miss Marjorie Hildebrand, assistant leader, took over the city government Tuesday night and ran the city as it should be run according to their ideas. The affair took place at the City Hall where an interesting program was carried out. The members of the troop filled the different city offices and did an excellent job.

Earlier in the evening the troop members gathered at the Y. W. C. A. and at 6:00 o'clock dinner was served. The table decorations were in charge of Marjorie Hildebrand and Shirley McGrath and were very attractive and colorful. Corsages were presented to Roberta Street and Margery Howe, first class scouts, and an added feature was that it was Miss Street's birth anniversary. Other corsages were given to Doris Schuler who is moving to Lorain, O., and to Mrs. Fred Taylor who has assisted the girls in their projects.

Upon their arrival at the city building the girls took over the entire city government. C. Ed Brown, city clerk, was chosen as master of ceremonies and after a few remarks called upon Mayor Charles B. Mayne who delivered the address of welcome.

At this stage of the program the officials took over. Miss Doris Schuler acting as mayor; Roberta Street, director of accounts and finance; Betty Bachman, director of parks and public property; Frances Carpenter, director of public safety; Dorothy Foley, director of streets; and Dulcie Culliford, city clerk.

As each of the city officials were introduced City Clerk Brown outlined their duties as provided by act of assembly. The girls who filled other posts were: City treasurer, Eleanor Irwin; city solicitor, Margery Howe; city controller, Lillian Adams; city engineer, Shirley McGrath; chief of police, Betty Jean White; fire chief, Norene Coates.

When the girls were installed they found articles on their desks symbolic of their duties and offices.

Presentation of merit badges followed. Mrs. Fred Taylor presenting cook badges to Frances Carpenter, Norene Coates, Dulcie Culliford, Dorothy Foley, Eleanor Irwin, Shirley McGrath, Doris Schuler and Betty Jean White. Miss Marjorie Hildebrand then presented architecture, interior decoration and

needlecraft badges to Roberta Street; campcraft badges to Margery Howe and Roberta Street; pioneer badges to Margery Howe and Roberta Street; swimmer badge to Roberta Street; and foot traveler badges to Margery Howe and Roberta Street.

Mayor Mayne was then called upon and presented the rank badges as follows: Membership stars to Norene Coates, Eleanor Irwin and Betty Jean White; second class badges to Norene Coates, Eleanor Irwin, Doris Schuler and Betty Jean White; first class badges to Margery Howe and Roberta Street.

In closing Miss Edith Cleveland, leader of the troop, told the girls how proud she was of their accomplishments. The girls then gave their Girl Scout promise and received their membership cards.

Following this the girls were taken to the detective bureau where they were shown around and fingerprinted by Chief of Detectives Ralph A. Criswell, assisted by Detective D. J. Thomas. Mrs. McKibben, police woman, gave the girls some good advice and answered numerous questions from the girls who showed intelligent curiosity.

Before leaving the building the girls received a "treat"—coca cola and popcorn. They agreed that the evening had been instructive as well as fun and "something different."

Sin And Its Consequences Highlights On The Sunday School Lesson

The Golden Text

Expulsion of Adam and Eve from the garden

"If we confess our sins, He is faithful and righteous to forgive us our sins, and to cleanse us from all unrighteousness."—1 John 1:9.

By NEWMAN CAMPBELL
(The International Uniform Lesson on the above topic for Nov. 2 is Gen. 3:1-24; Ps. 14:1-3; Jer. 17:9, 10; Mark 7:20-23; Rom. 1:18-32; 6:23; Gal. 6:7, 8; James 1:13-15; 1 John 1:5-9; Rev. 22:10-12. The Golden Text being 1 John 1:9. "If we confess our sins, He is faithful and righteous to forgive us our sins, and to cleanse us from all unrighteousness.")

Man's fall is very graphically pictured in the third chapter of Genesis, which is part of today's lesson. After the creation, the Lord placed Adam and Eve in the beautiful garden of Eden, and gave them command of all the beasts, birds and fishes, and also all growing things of the garden. They were to eat of the fruit of all the trees in the garden, save only one, the "Tree of Knowledge," which stood in the middle of the garden.

"But of the tree of knowledge of good and evil, thou shalt not eat of it: for in the day that thou eatest thereof thou shalt die," the Lord told them.

The serpent of the garden, however, being what the account calls very "subtle," meaning probably that the evil spirit had entered into it, tried to persuade Eve that she should partake of the fruit of this tree. Eve told him of the Lord's command and the consequence of disobedience, but the serpent answered, "Ye shall not surely die, for God doth know that on the day ye

eat thereof, then your eyes shall be opened, and ye shall be as gods, knowing good and evil."

Why Do We Listen?

Why do we listen to the tempter when we know perfectly well we will do wrong by following his suggestions? And why does the evil one always know our weaknesses and make his arguments so appealing? We do not know the answer to that, or to why after having been given everything to make her happy and her descendants after her for always, Eve should have listened to this evil counsel. But she did; she ate of the fruit and gave some to Adam and he ate.

And then something happened to them. They had never worn any clothes, nor needed them, but when they did this wrong thing and disobeyed the Lord, they felt naked—unclothed—and made themselves aprons of fig leaves. Wicked disobedience makes us, too, feel ashamed, not of our human bodies, but of our spiritual selves. That is part of the punishment that inevitably follows wrong.

Just then they heard the voice of the Lord as He walked off the garden in the cool of the day, and they were afraid, and hid. The Lord called Adam, and asked him, "Where art thou?" When Adam came out, he told the Lord, "I heard thy voice in the garden, and I was afraid, because I was naked; and I hid myself."

There was no need to say more. The Lord knew what these two had done, and when He asked Adam about it he said, "The woman thou gavest me to be with, she gave me of the tree, and I did eat." He was not man enough to acknowledge his own fault (like so many of us), but tried to throw the blame on Eve. And she in turn said the serpent had tempted her and she also had eaten.

What punishment would have been meted out if each had said "We knew better, we have sinned, and will spend our lives trying to atone?" They did not, and the Lord told the serpent that henceforth he would be cursed; he should crawl upon his belly, and eat dust. Also there would always be enmity between serpents and human beings.

"I will put enmity between thee and the woman, and between thy seed and her seed; it shall bruise thy head, and thou shalt bruise his heel."

Banished From Eden

Then the Lord told Eve that henceforth she must bring forth her children in pain and her sorrows would be multiplied. And to Adam He said, "cursed is the ground for thy sake; in sorrow shalt thou eat of it all the days of thy life: Thorns also, and thistles shall it bring forth to thee; and thou shalt eat the herb of the field;

"In the sweat of thy face shalt thou eat bread, till thou return unto the ground; for out of it was thou taken; and unto dust shalt thou return."

He then banished them from the garden, and "placed at the east of Eden Cherubims, and a flaming sword which turned every way, to keep the way of the tree of life."

Daily we must marvel how low man can go, to what depths of sin he can sink, and how full of faults even the best of human beings are. On the other hand, how high man can rise, with help from his God? That is the comforting thought.

"The heart is deceitful above all things, and desperately wicked; who can know it?"

"I the Lord search the heart, I try the reins, even to give every man according to his ways, and according to the fruit of his doings," as Jeremiah says.

Again, "Be not deceived; God is not mocked: for whatsoever a man soweth, that shall he also reap." Distributed by King Features Syndicate, Inc.
